I worked with John during all of 1965 and thru March of 1966. In 1965 we modified the F101 flight simulators at Oxnard & Hamilton AFBs in California; in Klamath Falls, Oregon and in Great Falls and Glasgow Montana. We returned to the plant in Riverdale, Md in November of 1965 where John and I shared an apartment (with John's dog, Snowball,) until March of 1966 when I returned to engineering school at Penn State. I lost contact with John but met up with a common friend and fellow Co worker John McGilverly many years later. Sorry to learn of his passing. He was a great guy!Phil DeCaraMcLean, Va.
