It's hard to believe that my mommy is gone no more hugs or kisses when I was little we used to do the kissy fish thing where we would suck in our cheeks to resemble a fish Oh how I miss those moments. I was a fat little kid and would have to practically run after her to keep up even when she wore a cast from thigh to ankle due to a car accident she still drove her Mustang that belonged to her mom mom was always quite the pistol never letting her health stand in her way until close to the end when Cancer finally won
