Gene and family: I was saddened to read the Start Tribune obituary for Nancy. She was a wonderful woman and I always enjoyed her. I remember so clearly babysitting your boys when you were a resident and I was a student nurse and then a nurse. I hadn't realized that you had relocated to Florida from Minnesota. It was good to reconnect with you Gene when we worked together once again at Woodlake. My sympathies to each of you. We will think of you on the 18th. Sharon

I just wanted to share that Nancy was such a pleasure to work with. I remember her last day at Omni Home Care as I had to reschedule all of her patients. I always smiled and joked with her when I heard her on the phone with her husband sounding so sweet as if they had just gotten married! I use to tell her that I want to be like her when I grow up. She gave me hope that marriages can still withstand the test of time. Nancy was such a blessing, God bless the family. Treasure every thought of her.

We were so saddened to hear of Nancy's death. We have so many fond memories of the times we spent together in Edina when our sons were growing up. Nancy's great love for her family was always so evident in all that she did. She was one of the most generous people I have ever met. When we moved into our home in 1977 she and her helpmate, Judy, came over and spent the day helping me line all of my cupboards with contact paper. She made the occasion one of great fun and I still cherish the memory when I open some of the drawers that still have the lining intact. I know how much she loved raising her own sons and so I was happy to know that she was also able to lavish that same love on grandchildren. Our thoughts and prayers are with all of you at this sad time.
