Daniel Sheppard

JUL 4, 1956 - OCT 3, 2024

Daniel Woolslair Sheppard passed away in his home surrounded by family on the evening of October 3rd.

Born on the Fourth of July in 1956, he was the 4th generation of his family to call Fort Myers home. He knew he always wanted to be a trial lawyer like his grandfather, and service in the U.S. Air Force provided him with the G.I. Bill that largely funded his time in law school.

A blind date led to his marriage to Lita Wang, also of Fort Myers. Together they were married for 44 years, raised 4 children (Daniel, Theodore married to Katherine, William, and Lia married to Tyler) and helped raise 8 grandchildren (Colton, Dane, Astrid, Elowen, Olan, Titus, Marceline, and William) - he will live on through them. In lieu of flowers or condolences, give to the poor.

Michael J Corso posted:

I was involved with hiring Dan out of law school to work for the Henderson Franklin law firm in Fort Myers. I was his "boss" for most of his time at the firm and he was in the office next to me . We shared a common past with our respective time in the US Air Force. Dan was hard working and was very good with his litigation skills . Although my contacts with him after he left firm were much less, I would see him occasionally and talk about "old times" and his Denver Broncos . He was proud of his children and I enjoyed catching up on what they were doing and he was proud in going thru their growth. He was a good husband to Lita and a good family man . I will miss him. May he rest in peace.Michael J. Corso

I worked with Dan at Henderson Franklin for many years. I respected him a great deal as an attorney and considered him a friend. He will be missed.
