“ It was a great pleasure knowing you. I enjoyed our talks very much especially how you spoke so well of your children and how much you loved being with Krystal, louly and Junior these past few years. You told me you were finally at peace with yourself and happy. You made me laugh and cry, all in good spirit. You are a remarkable woman and I will always remember you that way. whenever I'm having a glass of wine and listening to country music. I know that you will be sitting right beside me. Fly high sweet angel and rest in eternal peace. Know that we love your family and we will be there for them today tomorrow and always.  
Your friend always,
