You worked hard raising five children, and we never missed a great warm meal. (Nobody makes meatloaf like you). No matter how hard you worked, you managed to make yourself beautiful. Even your last days on earth, you made sure your hair looked perfect and had your make up on. Thank you for always attending and encouraging whatever sport I was doing at the time, especially teaching me to bowl as a young child, and letting me bowl on your team up until a few years ago. I know when I hear lightening now, it will you throwing a strike in heaven. I love you Mom, and you will always be in my

“ I hope everyone enjoys reading the obituary that I wrote and seeing the photographs. If you see them on your iPad or iPhone they are sideways but unfortunately they can't get that fixed there's a glitch in their system so you can only see them on your regular PC. I'll try to upload more on my iPad and see if that works. Mom loved all of her old pictures. One of her favorite pictures was the three girls walking down the street and it was the last time my Aunt Dot was pictured walking. It's a very special photograph to everyone .Hopefully I can try to upload it again and put it right side up.I love you mom, more than anything in the whole world. I miss you so much every day. You were not only a wonderful mother but you were my best friend. We laughed and we talked about everything and shared feelings. I feel your spirit here in our home every second of every day and I'm so glad that I am here in our home with your spirit. Its nice to walk into your room, or in the kitchen. I just feel you everywhere. You were so special to me you'll never know how much I admire and love you. and I thank you for everything that you've ever given me or done for me .
